

Project Name:

Project Management.

Project Information:

In this project, we have build up a multi user form that can be accessed by teachers and students using their own usernames and passwords in which students can registration, login, and keep and edit their details without updating and deleting their marks . Faculties can check and update all of their marks. One thing which must be accomplished is that if student doesn't have the existent of her/his record then adding new record must be done first. Below are the demos:

localhost/FinalProject/index.php

Student Sign Up Form

Please fill this form to create an account.

Username

Password

Confirm Password

[Student Login here](#)

[Faculty Login here](#)

For faculties-They can edit students' marks but can't edit student details.

Student Details

username:Raktim

#	Name	Course	Project ID	Project Link	Marks	Action
0	Wack	cse	11	github.com	90	 
1	Sapphire	EEE111	13	notion.so	pending	 
2	Soap	CSE231	11	Typre.com	pending	 
3	Elle	BIO103	1233	github.com/elle	50	 
4	Poe	CSE173	1233	github.com/poedamon	60	 
5	SDE	CSE311	12	github.com	50	 
6	sabbir	12345	123345	github.com	pending	 

I'm done! Sign out

For students-Here they only can edit their own information.

① localhost/FinalProject/intro.php

Student Details
